INSURANCE DEFINITIONS

Deductible - The amount you owe for services your insurance plan covers before your plan begins to pay.

For example, if your deductible is \$450, your plan won't pay anything until you've met your \$450 deductible for covered services subject to the deductible. The deductible may not apply to all services.

Coinsurance - Your share of the costs of a covered service, calculated as a percent (for example, 20 percent) of the allowed amount for the service. You pay co-insurance **plus** any deductibles you owe.

For example, if the insurance's allowed amount for a service is \$100 and you've met your deductible, your co-insurance payment of 20 percent would be \$20. Your insurance pays the rest of the allowed amount.

Annual Maximum Benefit - The benefit period maximum is the maximum the insurance will pay for each Covered Person in a benefit plan year.

In-Network - The facilities, providers and suppliers your insurance plan has contracted with to provide your care.

Out-of-Network - Facilities, providers and suppliers that are not contracted with your insurance plan and can balance bill you any charges your insurance does not cover. You may be balanced billed for services by the facilities, providers and suppliers.
